

Arabian Packaging announces a strategic engagement to create a high performance sustainable environment

Sustainability is becoming a more important initiative for all companies, across all industries. Arabian Packaging is taking steps to ensure our business approach creates long-term value by taking into consideration how a given organization operates in the ecological, social and economic environment.

Arabian Packaging, through its Management team, has taken the drive toward a more sustainable environment and circular economy, by announcing a strategic business relationship with Goumbook - a leading social enterprise promoting sustainable living and green practices in the UAE and beyond since 2010.

Goumbook aims to guide, inspire and empower businesses and individuals on their path towards greener and more sustainable practices. Goumbook commits to making a difference and reinvests all its profits to carry out long term programs and develop new initiatives.

Promoting and continuing the progress, Arabian Packaging has also engaged with Dubai Chamber Sustainability Network to become valuable member of Dubai Chamber, by demonstrating leadership in integrating sustainability practices.

Arabian Packaging's involvement in this network will certainly inspire and drive our businesses towards CSR action, and a sustainable circular economy for our industry.
